

This plan is primarily a general statement of equipment to be used and measurements are to be verified on the job. Where applicable, alterations, electrical, and refrigeration have been included as necessary as possible and are intended to suit equipment to be supplied. We accept no responsibility for the work done by third contractors and will not incur any expense for the changes made necessary by the local building codes, ordinances, structural conditions, or by the installation of changes in equipment shown on this plan. The drawing is not intended to be a contract and is subject to change without notice. Any use of equipment shown in this plan or any part thereof by anyone other than Uniweb, Inc. must be authorized in writing.
